

## Graduate Student Research and Travel Grants ~ Spring 2021

**Application Deadline: 5:00 p.m. on February 28, 2021**

With these grants, the **Carolina Center for Jewish Studies** supports graduate student research and travel, including travel to present papers at scholarly meetings. These grants can be used to reimburse travel costs pertaining to research projects and/or costs for materials required for research, as well as to reimburse costs for travel, room, board, and registration fees at domestic or international conferences\*. Applicants must be enrolled UNC graduate students working on a topic in Jewish Studies.

All five types of research and travel grants now require the same application form and supporting documents, see details below. Please note that the Center's graduate student summer research stipend and the Dissertation Completion Fellowship require separate applications and additional supporting documents, please see our web site for details.

\* Students applying for grants to present at a conference must already have a paper on a Jewish Studies topic accepted for delivery at an academic conference. Note that for scholarly meetings, the maximum amount of support is \$1,000 for a domestic conference and \$2,000 for an international conference.
